

MAJETI LAHARI

Software Developer

laharimajeti2002@gmail.com | +91-8121438529 | [LinkedIn](#) - [GitHub](#) - Portfolio | Bengaluru

CAREER OBJECTIVE

AI/Software Developer specializing in Generative AI, DevOps, and full-stack development. Seeking a challenging role to leverage AI/ML, cloud platforms, and software engineering skills to build scalable, intelligent systems.

TECHNICAL SKILLS

Programming: Python, Java, C, C++, Spark Scala, Shell Scripting, Laravel PHP, Selenium (Basics) Web & Frontend: HTML, CSS, AngularJS, TypeScript, React

Databases: IBM Db2, SQL

AI/ML: LLMs, RAG, Named Entity Recognition, Watsonx.ai, Milvus, LangChain

DevOps & Cloud: Jenkins, Tekton, GitHub Actions, IBM Cloud, OpenShift, CI/CD, Twistlock, Mend, COS, Secrets Manager

Tools: Microsoft Word, Excel, PowerPoint, Slack automation

PROFESSIONAL EXPERIENCE

IBM – Software Developer & AI/DevOps Engineer

Software Development - Built seller payroll web apps (Angular + Laravel PHP) with dynamic UI & backend modules. - Managed payroll databases using optimized SQL queries and CRUD operations. - Developed Spark Scala pipelines for large-scale payroll data processing. - Automated UI testing via Selenium integrated with CI pipelines.

DevOps & Cloud - Maintained Jenkins & Tekton pipelines; integrated Twistlock & Mend for security compliance. - Configured IAM policies, GitHub Secrets, and repo access controls. - Managed IBM Cloud Object Storage, OpenShift deployments, and automated workflow scripts.

AI Development - Project Q&A Chatbot: Watsonx.ai + Milvus-based RAG chatbot for documentation semantic search. - Run Status Bot: LLM-assisted querying of IBM Db2 for real-time system run statuses. - SRE Support Bot: Semantic search over manuals/runbooks for issue triaging. - LLM Test Case Generator: Auto-generates unit/integration tests from feature specs. - Developer's Genie (Agentic AI Assistant): Multi-agent AI assistant for code analysis, version comparisons, and flowchart generation.

PROJECTS

MCQ Generator (Multi-Modal GenAI)

Tech Stack: Python, Streamlit, Mistral LLM, OCR, Whisper, MoviePy

A GenAI system that converts text, documents, images, audio, and video into high-quality MCQs with answers and explanations. Designed with modular pipelines, input validation, and educational content filtering.

Developer's Genie – Agentic AI Assistant

Tech Stack: Watsonx.ai, LangChain Agents, React, SQLite, Multi-Agent Design

An award-winning agentic AI system that enables conversational understanding of multiple versions of technical documents and code. Supports summarization, comparison, debugging assistance, and serves as a KT tool for teams.

Q&A Chatbot on Project Modules (RAG)

Tech Stack: Watsonx.ai, Milvus, Flask, IBM Cloud, Docker, Jenkins, COS

An end-to-end Retrieval-Augmented Generation application that allows developers and SREs to query project documentation conversationally. Includes automated ingestion, embeddings, CI/CD, containerized deployment, and cloud hosting.

Portfolio Chatbot:

Flask + Watsonx.ai + Milvusbased AI chatbot for project demos.

Enterprise AI Utilities

Tech Stack: Watsonx.ai, IBM Db2, Prompt Engineering, NLP

Built internal AI tools including a Run Status Bot for real-time system introspection via Db2 and an LLM-based test case generator to improve coverage by auto-generating unit and integration tests from specs.

Named Entity Recognition (Bi-LSTM):

Python ML project for entity extraction.

Room Allotment System:

Python + DB integration for automated allocations.

Static Web Page (SVLH Fashions):

Responsive web page for client business.

EDUCATION

Ramachandra College of Engineering, Eluru | JNTU-Kakinada
Bachelor of technology - Computer Science and Engineering

2019–2023 | CGPA: 8.14

Intermediate, Sri Chaitanya Junior College, Eluru | AP Board
MPC

2017–2019 | GPA: 9.94

Secondary Education, Little Buds High School, Eluru | AP Board

2016–2017 | GPA: 10

STRENGTHS

Passionate, Adaptive, Quick Learner, Team mentor, Communicative, Tech Enthusiast
